

HYNE Decking

For the great Australian lifestyle

Decking is very much about the great outdoors. Australian produced, traditional, home-grown, high quality hardwood decking has stood the test of time. This Australian hardwood decking has high durability and great versatility as well as the unique natural colour and beauty to enhance Aussie decks, patios and verandahs.

Hyne Wholesale also stock high quality, imported, select grade hardwood decking which is sourced from sustainably managed forests and has independently assessed Forest Management and Chain of Custody Certification. The species, Merbau, Yellow Balau and Pacific Jarrah are also naturally durable and can be used in similar applications.

Hardwood decking from Hyne is suitable for all outdoor and weather exposed applications. It is low maintenance, easy to clean and it will take the hard knocks of family life. Importantly, you can rely on decking from Hyne to provide long lasting performance and great looks as well.

Our decking is totally fit for purpose and will enhance any outdoor area. Complying with the requirements of Australian standards, hardwood decking is produced from Durability Class 1 and Class 2 hardwoods that have proven, long term durability and reliability.

Hyne Wholesale has decking readily available in pack lots of specific species or mixed Australian hardwoods as well as pack lots of imported Merbau, Yellow Balau and Pacific Jarrah.

Durable. Versatile. Beautiful.

GRADES

Select Grade (Australian & Imported)

A clean, modern appearance obtained by selecting boards showing a minimal amount of natural features whilst exposing the tones and textures that distinguish the rich colours and grain patterns of the timber. This premium grade limits other natural features in the timber.

Standard and Better Grade (Australian)

A mixture of select and standard grades.

Standard Grade (Australian)

A grade which allows some of the natural features, including gum veins, insect markings, surface checks and small knots, while at the same time maintaining durability and structural performance.

Utility Grade (Australian)

Embossed with nature's signature. This grade allows a high level of natural features, including gum veins, insect markings, surface checks and small knots and other natural imperfections. It will often be supplied with shorter length material.

Check availability on the grade from your local Hyne Wholesale.

AVAILABLE SIZES

Australian Hardwoods

Mixed Hardwood: 86x19, 136x19, 65x19

Spotted Gum: 86x19, 136x19, 65x19

Forest Reds: 86x19, 136x19

Iron Bark: 86x19, 136x19

Blackbutt: 86x19

Imported Decking (Select Grade)

Merbau: 70x19, 90x19

Yellow Balau: 70x19, 90x19

Pacific Jarrah: 90x19

FIXING

Hardwood decking should be fixed and finished as per Timber Queensland installation and finishing instructions. All fixings in weather exposed conditions should be hot dipped galvanized or stainless steel nails (not zinc plated). For corrosive environments such as around pools, stainless steel nails and fixtures should be used to ensure longer life for your deck.

FINISHING

There are a number of finishing options for timber decks including leaving a natural finish. Exposure to weather will eventually result in the surface colour of uncoated decking changing to a silver grey colour. To maintain colour and achieve maximum life for all decking, apply an appropriate sealing coat to the surface. The use of penetrating oil or stain finishes will help protect decking from weathering.

MAINTENANCE

Regular cleaning of your deck should be done by dry methods such as sweeping. It is recommended to use specialist timber decking cleaners to remove ground in dirt. To achieve long-term performance from your deck a regular maintenance program in regard to your selected finish coatings should be reapplied. Decking in weather-exposed conditions will require re-application of the decking finish at shorter intervals. On average you should expect protection for 12 months from oils and 1-2 years from stains. For further information about maintenance, finishing and fixing details visit the Timber Queensland website at: www.timberqueensland.com.au.
